### Vital Impact Online Shop

Ever since the launch of Vital Impact Products in Hong Kong in 1988, and Singapore in 2009, there has been good response from the users. Over the years we have received calls and emails from overseas clients who are looking forward to try our products.

In response to the demands of our overseas clients, Vital Impact is now expending our business to the international e-commerce level. Today is the Grand Launch of the Vital Impact Online Shop!

Customers who are living in other countries, can order their desired Vital Impact products on our website [www.vital-impact.com](http://www.vital-impact.com) through the Internet without having to travel to Hong Kong or Singapore.

Products that are ordered through our Online Shop will be properly packaged, sealed, and sent to the specified address. (Shipment only limited to countries outside of Hong Kong and Singapore)

Since there will be regular promotional sales and shipping charges involved, the prices listed on the Online Shop may or may not be the same as the Hong Kong and Singapore retail prices.

Additionally, the Online Shop also provides a service called “Product Enquiry” in which online customers can interact with our product advisors through emails. For customers who are not sure which product or which combination fits you most, you are now welcome to fill in the Product Enquiry Form (Located in the Product Overview, Product Category List and Product Description pages). Our product advisors will gladly answer your questions, explain the beauty and benefits of Vital Impact Products, and give recommendation to dosage and product combinations.

“Terms and Conditions” and “Privacy Policy” links at the bottom of the website provides details about the terms and conditions of Vital Impact Online Shop, and about how your personal data is being handled.

Vital Impact cares about your health. Look for the “BUY NOW” button on our Online Shop and start experiencing Vibrant Health Now!
